Lesson Reference

Get a list of Pods in the `kube-system` Namespace.

```
kubectl get pods -n kube-system
```

Get a the same list of Pods using the raw Kubernetes API.

```
kubectl get --raw /api/v1/namespaces/kube-system/pods
```

Get information on a single Pod using the raw API.

```
kubectl get --raw /api/v1/namespaces/kube-system/pods/etcd-k8s-control
```
